

Conducted through our national network of Farm Conservation Advisers, FWAG now offer a **LEAF Marque Gap Analysis** service.

Make meeting the Marque less stressful

During a two hour visit to your farm, our adviser will identify any areas for improvement and develop an 'action plan' to help you achieve certification. You'll also receive a personalised folder detailing practical actions for all seven sections of the LEAF Marque standard, together with time scales and supporting documentation. If required, we'll even help you with the filing so you can find what you need - fast.

Whether you're already LEAF Marque certified or about to embark on the process, this service could save you a lot of time, energy and stress!

To find out more and to book your LEAF Marque Gap Analysis call FWAG today on 02476 696 699 or e-mail leaf@fwag.org.uk
